

KEISER STRENGTH

# A350 BIAXIAL CHEST PRESS

Model 1335

UPPER BODY MACHINES

**KEISER**<sup>®</sup> ENGINEERING HUMAN PERFORMANCE™

## DELIVERING BALANCED RESULTS

To maximize your range of motion, we start you with a wide grip when your hands are even with your chest. As you move through the range of motion, your hands converge to complete the work on your chest and arms. The independent movement of the exercise arms prevents your stronger side from helping your weaker side, thus maximizing your results.

## KEISER DYNAMIC VARIABLE RESISTANCE

Keiser's **Dynamic Variable Resistance** is designed to provide a smooth consistent Variable Resistance force curve at any training speed. Each machine has its own unique Variable Resistance curve designed and tuned perfectly for the muscles being used in that particular exercise. For users, this means that working out any speed, you'll always be training at maximum efficiency.

## FEATURES

- Unique axis of rotation allows greater range of motion in natural planes of movement
- Smooth Keiser **Dynamic Variable Resistance**
- Fully adjustable to accommodate a wide range of users
- Durable construction engineered for years of use
- Large digital display with resistance and counted repetitions

## SPECIFICATIONS

**HEIGHT:** 78" / 1981 mm

**WIDTH:** 43" / 1092 mm

**DEPTH:** 58" / 1473 mm

**WEIGHT:** 194 lbs / 88 kg

**RESISTANCE:**

0 - 304 lbs / 0 - 138 kg
